SL NO. 039474

**Notes for the " B " Volume of the Gazetteer
of the Benares District—1901-1911.**

(1) Page 85.—CENSUS, 1911.

The census figures show an increase in population amounting to 14,951 in the district. The population of the city shows a decline. The figures were however slightly affected by the presence of plague in the city. A recount was made a few months later, but the result remained the same.

(2) Page 154.—POLICE STATIONS.

By notification no. 511/VIII—2215, dated the 13th May 1907, the police circles in the Benares tahsil were redistributed. The police station at Chaubepur was abolished, and its villages given to Sikraul and Cholahpur. In order to make circles of a more or less uniform size villages were exchanged between various police circles.

(3) Page 137.—SUB-DIVISIONS.

Under G. O. no. 369, dated the 27th March 1911 pargana Kaswar Raja which up to then had formed part of the Family Domains of the Maharaja of Benares, came into the Benares district for revenue purposes. It was already in the Benares district for criminal.

(4) Page 163.—OPIUM.

The shop to shop system was reintroduced from April 1st, 1910. Experience proved that with a district contractor the price was raised beyond all reason, leading to smuggling. Some opium was sold retail as high as 80 rupees per seer.

(5) Page 164.—INCOME TAX.

From 1909-1912 a special enquiry and assessment was made by Rai Bahadur Ganga Sahai, Deputy Collector, which resulted in a very marked increase and also a much fairer assessment.

(6) Page 170.—DISTRICT BOARD.

From April 1st, 1911, the Family Domains Local Fund ceased to exist and pargana Kaswar Raja was incorporated in the Benares district.

(7) Page 179.—HOSPITALS.

From 1st April 1906, a Veterinary Hospital has been opened in the city.

(8) Page 248.—DASASUMEDH.

This large bazar close to Dasasumedh Ghat has now been properly built by the municipality at a cost of 22,000 rupees.

(9) Page 249.—DASASUMEDH.

All the Siga Mission station is within the municipal limits

(10) Page 253.—MACHODRI TANK.

The grounds round the Machodri Tank have now been formed into the Gokul Chand Memorial Park.

(11) Page 253.—BISHESIURGUNJ.

This market has now been rebuilt and connected with Alaipura railway station by a fine broad road.

(12) Page 258.—CHAITGANJ.

The Zenana Mission is in Ram Katora not Houz Katora.

(13) Page 263.—WATER WORKS.

A new pump at Bhadaini has been erected, capable of pumping up half a million gallons per hour. A second rising main has been put in, a lock bar pipe 36 in. diameter. According to the statistics there are 8,697 house connections, 426 standposts, and maintenance charges about 85,000 rupees per annum. Consumption about 25 gallons per head.

(14) Page 264.—DRAINAGE.

The old rectangular drains are being taken up, and their level improved, and they are being cutted, so that they will be much better.

JAUNPUR.

Supplementary notes and statistics to

VOLUME XXVIII

OF THE

**District Gazetteers of the United Provinces
of Agra and Oudh.**

ALLAHABAD :

Printed by F. Luker, Superintendent, Government Press, United Provinces,

1915.

Alterations and Additions to Part A of the Jaunpur District Gazetteer, bringing it up to date (1911-12).

NOTES.

TABLE VI.—PRINCIPAL CROPS.

Opium cultivation in the Mariahu and Kerakat tahsils was closed altogether, from 1318 and 1319 Fasli respectively.

TABLE XI.—EXCISE.

The distillery system is in force in the district and there has been no change in it. The duty on country liquor was raised from Rs. 3 to Rs. 3-8-0 per L. P. Gallon for the entire district from 1st April 1912. The Tahsilwise contract for the sale of drugs was introduced in this district from 1st April 1912 instead of a farm for the whole district. Duty on *charas* was increased from Rs. 8 to Rs. 12 per seer in 1912-13. Duty on *pathar ganja* was raised to Rs. 7-8-0 per seer from 1st April 1913, but with no effect as *ganja* of this sort is not imported here. Shop to shop system of Tari contract was introduced in the district from 1st October 1912.

Opium smuggling to Calcutta and Rangoon was rife (1912-3-14) in the south of the district, but prosecutions have curtailed this practice, it is believed, of late. The high prices down country are the cause.

TABLE XIII.

From 1903-04 income-tax ceased to be levied on incomes between Rs. 500 and 1,000.

TABLE XVII.—DISTRIBUTION OF POLICE.

- (i) The Chaukidari force has been converted into regular police.
- (ii) The police stations of Gulzarganj and Khutahan were abolished in 1908 and an outpost established at each of those places instead.
- (iii) There are now 15 police stations and 3 outposts with a police force consisting of 29 Sub-Inspectors, 19 head constables and 176 constables.

- (iv) The armed police has been increased by 1 head constable for the magistrate's personal guard and 1 head constable and 3 constables to replace the Burkandaz guard.
- (v) The Takha Marhala outpost and 2 road chaukidars on the Fyzabad road have been abolished.

GHAZIPUR.

Supplementary notes and statistics to

VOLUME XXXIX

OF THE

**District Gazetteers of the United Provinces
of Agra and Oudh.**

ALLAHABAD :

Printed by F. Luker, Superintendent, Government Press, United Provinces.

1915.

Notes for the 'B' Volume of the Gazetteer of the Ghazipur district 1901-1911.

Page 22.—RAINFALL.

Before Rainfall Section insert new section.

AEROLITES.

There were 2 remarkable falls of aerolites in the district on the 9th May 1907 and the 7th January 1910. The largest of the stones is said to have weighed a maund.

Page 26.—PLAGUE.

Among the other causes of death the most prominent are bowel complaints, especially dysentery (which is a frequent resultant of malarial fever) and plague. The latter first made its appearance in 1900, when a single imported case occurred in a village on the Ballia border. Six more cases were reported in the following year, and in 1902 the reported deaths aggregated 23, but were still confined to the same locality. At the close of 1903, however, three more villages were attacked, and in the ensuing January a few cases occurred in the town of Ghazipur. The disease then spread with alarming rapidity and, by the end of 1904, had obtained a complete hold of the district, the total number of deaths for that year being no fewer than 13,080. So far from abating, the figures rose to 20,128 in 1905; but this apparently was the climax, for, in the following year, the number of recorded deaths was only 1,413. In 1907 the disease broke out with renewed virulence, 12,994 deaths being ascribed to this cause alone. In the two following years the epidemic was not so bad, but in the last four months of 1910 there were 6,090 deaths, and in the first five months of 1911, 13,874.

The advantages of evacuation are now fully appreciated and, when plague is in the neighbourhood people regularly prepare huts to be ready for the usual exodus. Hutting materials are given free to the very poor.

Inoculation has advanced slowly. The ignorant classes fear the after-effects and the educated are not enthusiastic over a treatment which gives but temporary immunity.

The number of persons inoculated from 1906 to September 1913 was only 12,378, but during the winter of 1913 and 1914, two peripatetic assistant surgeons have performed a number of further inoculations.

At first rats were destroyed, but this method of prevention has been discontinued, and fumigation of rats holes has also been tried as an experiment.

Page 32.—CULTIVATION.

To be added after the existing section.

A demonstration farm was opened at Ghazipur at the end of the year 1912. A plot of 2·8 acres of land, lying along the pakka road which runs from the city to Gora Bazar via Pirnagar, was acquired, and operations were started in rabi 1320 Fasli. The objects of the farm are to demonstrate improved methods of cultivation, and to introduce new and improved varieties of seeds.

A seed dépôt is attached to the Farm and there is already a good demand for the seeds. An overseer of the Agricultural department is in charge of the Farm and the operations are under the general control of the Assistant Director of Agriculture.

Page 39.—CULTIVATION OF POPPY.

Page 41, line 8.—Alter "China" to "the Straits Markets."

Page 41, line 24.—Alter "Rs. 6 to Rs. 7-8-0".

Page 41, last line of para.—Alter "but from 1894 the present rate has been unchanged" to "from 1894 to 1913 the rate was Rs. 6 after which it was raised to Rs. 7-8-0."

Pages 37 to 41.—OPIUM.

Opium is less widely produced in this district than formerly. The area has sunk from 14,989 acres, or 3·89 per cent. of the land sown with rabi crops, to 4,050 acres on 1·107 per cent. of the land sown with rabi crops. The proportion varies to a remarkable extent in the different parganas, but generally it is highest in the neighbourhood of Ghazipur, amounting to 1·38 per cent. in pargana Ghazipur, 1·39 in Shadiabad, 1·19 in Mahaich, 1·11 in Saidpur, while in Dehma, Khanpur and Karanda, it is less than 1 per cent. The importance of the crop is greater than in any other district of the division, and this is doubtless due to the selection of Ghazipur as the head quarters of the Benares Agency, which includes almost the whole of the United Provinces.

The Agency was under the control of the Board of Revenue, Bengal, until 1911, when it was formally made over to the United Provinces Board and Government. Owing to the control exercised by the Board of Revenue, Bengal, over the Agency in former years, the head of the Department was, till 1894, chosen from the Civil Service of the Lower Provinces. Since that year he has been selected from the covenanted civilians of the United Provinces.

The Government monopoly of opium was an inheritance from early days, and, on the introduction of the Company's rule, poppy cultivation was entrusted to contractors, but this arrangement led to a deterioration in the quality of the drug and a marked decline in the profit.

In 1797 the management was made over to a covenanted officer, and the Benares Agency was established under the control of the Commercial Resident, this system, which remained in force for 24 years, resulting in an extension of cultivation, increased produce, and a greatly enhanced revenue.

In 1821 the charge of the Agency was given to an Opium Agent, and the Collectors of the poppy growing districts were designated Deputy Agents, the district management of the cultivation and collection of opium being in the hands of gomashas or native assistants. The Commercial Resident had received a commission on the profits. This concession was, for a short period, allowed to the Collectors, at the rate of $2\frac{1}{2}\%$ on the profits in excess of the average produce of 1819-20 and the two following years. This system proved expensive and defective, and, in 1830-31, a few uncovenanted assistants were appointed to supervise the gomashas, the new class of Officers drawing a commission on a modified scale. Five years later uncovenanted officers of a higher class called Sub-Deputy Opium Agents, were appointed on fixed salaries, with a fixed travelling allowance in lieu of the commission, although they still drew a commission of Rs. 5 per maund on all opium in excess of the prescribed standard for each district.

In 1852 a fresh organization of the Department was introduced, the staff comprising Sub-Deputy Opium Agents, Assistants and Probationers, the first being graded in 5 classes, and all being

gazetted officers holding their appointments under the Government of Bengal.

The numbers were enlarged from time to time and the rates of pay also underwent modification.

In 1904 a time scale of service was introduced for all gazetted officers on Rs. 800 and below, and in 1913 this was extended to all officers from Rs. 900 and below.

Recruitment is by nomination, followed by competitive examination, one-fourth of the vacancies being reserved for natives of India. There has been a reduction in the cadre of the Department since the extinction of the trade with China, and recruitment has been closed since.

For administrative purposes, the United Provinces are divided into 15 divisions or sub-agencies, the Ghazipur division including this district and Benares.

The divisions are further split up into kothis or sub-divisions, each under a gomashtha, and each kothi comprises three circles supervised by a muharrir or writer; while each circle consists of a number of beats in the charge of zilladars or peons who supervise the cultivation, instruct the cultivators in the preparation of the drug, and convey to them the orders of the Sub-Deputy Opium Agent.

The Assistant Agents have charge of one or more sub-divisions, and their duties are similar to those of the Sub-Deputy Opium Agents, the latter being responsible to the Opium Agent who, in turn, is responsible to the Board of Revenue and the Government of the United Provinces.

The control of the Agency by the Government of Bengal dates from the separation of the North-Western Provinces in 1835, when it was decided that the management of the Department should remain with the Board of Customs, a body subordinate to the Local Government of the Lower Provinces. The control of the Government of Bengal over the Department ceased in 1911, from which time it has been vested in the Government of the United Provinces. But the Government of Bengal controls the sales of the provision opium chests, which are still stored in the Presidency godowns, and disposed of from there by monthly public sales.

*Pages 53-54.—FAMINE OF 1907-08.**(To be added after the existing section.)*

Besides the measures of relief enumerated above, the following suspensions were granted :—

					Rs.
Kharif revenue	82,000
Rabi	9,000
Takavi advances were made as follows :—					
For improvements	75,000
Rabi sowings	1,50,000
Kharif	15,000

In 1912 the late rice crop was a partial failure, and it was expected that, owing to the absence of rain in the latter part of September and October, the rabi might be affected. Takavi was distributed, but rain falling in November saved the situation.

*Page 58.—BANK.**Instead of existing section.*

There are at present three banks in the district.

(1) The Kayastha Trading and Banking Corporation, Gorakhpur, Limited. A branch of this bank was opened at Ghazipur on the 1st August 1910.

(2) The National Insurance Bank, Amritsar. A branch of this bank was opened here on the 31st May 1909.

(3) The Peoples' Industrial Bank, Limited. A branch of this bank was opened here on the 14th May 1909.

*Page 58.—CO-OPERATIVE CREDIT SOCIETIES.**After banks.*

Co-operative credit societies were introduced into the district in the year 1905. As an experiment two societies were opened in the Court of Wards villages, Saidpur and Tajpur. Owing to certain defects in the management, it was found necessary to reconstitute them. In January 1912, an organization fund was opened, with the object of re-organizing the existing societies and providing credit and banking facilities for registered societies. The reserve fund on the 30th June 1913 was Rs. 3,711-9-7, and the working funds more than Rs. 29,262-15-9. There are now ten societies in a flourishing condition.

Pages 59-60.—OPIUM FACTORY.

The chief industrial concern in the district is the Government Opium Factory at Ghazipur, to which are consigned the poppy products—opium, leaf, and trash—of all the opium producing districts of the United Provinces. The Factory stands on the high bank of the Ganges, between the city and the Civil Station, and covers an area of about 45 acres, with the right to all alluvial land on the river front. At first it was located in an enclosure on the east of the city, which was afterwards used as a charitable dispensary and subsequently sold, and later the Factory was established in a building now included in the district jail. The present site was selected in 1820 when larger premises were necessitated by the increased outturn and the expansion of the operations of the Agency. The Factory comprises six distinct enclosures, including the Superintendent's house on the bank of the river, the quarters for the Factory Engineer and one Assistant in the north-west corner, the guard lines on the north, built on either side of the road, leading into the city, and the large compound between the west wall of the main building and the public road, in which are situated the Superintendent's office, the Dispensary, Fire Brigade quarters, and the Institute for the large staff of assistants employed. The main buildings or Factory proper, consist of an inner and outer enclosure. Within the latter are two godowns for the storage of leaf with a capacity of some 25,000 maunds, seven godowns for storing trash, nine sheds for empty chests, one godown for cups with a capacity of about 24 lakhs, workshops, fire engine houses, and sheds for coal and miscellaneous stores. The inner enclosure contains the buildings connected with the manufacture and storage of opium. These comprise an import shed, capable of holding about 10,000 jars or bags of opium, a malkhana with thirty stone vats, to take 47,000 maunds, six godowns, fitted with wooden racks, to accommodate about 9,00,000 cakes, a double row of manufacturing and allegation rooms, 400 feet in length, four buildings for the manufacture of excise opium, with a yard provided with platforms, on which 1,000 trays can be exposed at a time. A laboratory for the assay of opium and the manufacture of alkaloids and of medical opium in cake and powder, buildings and vats for washing bags and for the preparation of

lewa or paste, and a godown for stores. For protection against fire there are two steam and fire manual engines, the supply of water being obtained from the numerous masonry tanks. In addition to these there is a system of hydrants in connection with a large water tower, 85 feet high, surmounted by a capacious tank standing in the outer enclosure. By means of these hydrants, jets of water can be maintained for several hours at a time on any of the buildings that might be endangered by fire.

The tank, which is always kept filled for emergencies (water for the daily needs of the factory being obtained from a reservoir in the inner enclosure), has a capacity of 63,680 gallons, and is supplied from an immense well, 89 feet in depth and 25 feet in diameter, by means of a powerful pump. This well is provided with a subsidiary pump as a reserve in case of emergencies. There is another well, but not so large, with a pumping installation on the river bank.

The fixed guard at the factory for sentry and search duty consists of 88 men of all grades. The Factory is in charge of a Departmental Officer, known as the Factory Superintendent, who is also the Opium Examiner. His permanent staff comprises two Assistant Superintendents, an Assistant Opium Examiner, a store-keeper, an Engineer, and eight subordinate Assistants.

The chief function of the Factory is the preparation of the opium for what may now be called the Strait's markets, and that required for excise purposes throughout India and Burma. The extension of the excise operations in the Factory has brought about the increase in the number of buildings and the enlargement of the yard for excise work referred to above. The supply of the excise opium for the whole of India and Burma was undertaken by the Factory in 1912, on the closing down of the sister factory at Patna.

In the year 1913, 19,106, maunds of 'Malwa' opium, which the merchants of the Central India Agency were unable to dispose of, owing to the closing of the China Market, and in 1914 a large supply of Baroda opium, were purchased by the Government of India and transferred to the Ghazipur Factory for manufacture into excise opium.

Pages 60-62.—PROCESS OF MANUFACTURE.

The new season's opium arrives from the districts at the beginning of April, in jars or bags of one maund each, and, after

weighment, is examined in order to classify it according to consistency and determine its purity. The former is necessary in order to determine the amount payable to the grower, and, when this is done, the opium is emptied into the stone vats in the malkhana. For testing its purity, iodine is employed, as this exposes the presence of starch, sometimes too, slight adulteration by foreign matter, such as petals or sand, is detected, and this opium is set aside for the manufacture of paste. Suspected pots sent for examination by the District Opium Officers are confiscated where bad adulteration is revealed, or else are passed for conversion into paste, a fine being imposed according to the degree of impurity. The manufacture of provision opium begins about the end of April, the most important process being the allegation of the different consistencies, so as to reduce the whole to a standard consistence of 71 per cent. This is a somewhat complex undertaking, since atmospheric conditions have to be taken into account. The opium is then made into cakes by trained men, who are paid an anna for every eight cakes, and can turn out from 45 to 70 daily. The cakes are made in brass hemispherical moulds, and are then placed in the sun in unglazed earthen cups before removal to the racks in the godown. The storage and care of the opium in the godown is a very important duty, and a large staff is employed to take down the cakes constantly, rub them lightly with the hand, or with a little trash, expose another surface of the cake, and put them up again, the object being to enable the surface to dry evenly throughout, and to prevent damage by mildew or insects.

About the beginning of August they are all taken in hand, inequalities in the shell being smoothed over with leaf and lewa or paste, while finally the cake is coated over with its final layer of leaf, giving it a smooth and finished appearance. By the beginning of November the cakes are mature, and the Collector of the district is then invited to select four for analysis by the Chemical Examiner to Government and the Factory Superintendent at Ghazipur. The result of the Chemical Examiner's examination is published at Calcutta for the information of the merchants. The opium is then packed in chests of mango wood, with 40 cakes in two layers in each chest, every cake being a separate

compartment, and all corners and crevices are filled in with poppy trash for a padding. All joints and cracks in the chest are covered over with cloth, and smeared with pitch so as to render it damp proof, and then the chest is encased in a gunny covering bearing the words ' Benares Opium,' the number, and the Government trade mark. Five hundred chests are made ready daily, and every fourth day a special train is made up for Calcutta. The opium required for Indian consumption, known as excise or sbkari opium, is dried by exposure to the sun to a consistency of 90 per cent., and is then pressed into cubical cakes of either one seer or half a seer each. These are then wrapped in two sheets of Nepal paper each, the inner sheet being slightly oiled to prevent adhesion, and are packed in boxes containing 60 seers a piece. They are issued on indent to the treasuries in the provinces supplied by the Factory. The quantity of excise opium now amounts to 14,000 maunds annually, and seems likely to increase.

Contraband opium, sent by Excise Officers to Ghazipur, is examined and, if found fit for use, is employed in making the paste with which the shells of the Provision opium cakes are cemented, or else is set aside for the extraction of the alkaloids, morphine and codeine, both of which are made throughout the year from the refuse opium that cannot be used for provision or excise cakes.

Morphine is produced in the shape of pure morphine and its salts, hydrochloride, acetate, sulphate, and tartrate codeia is made in pure crystals, some 60 lbs., worth Rs. 8,160, being turned out annually, while the amount of morphine salts may be set down as 300 lbs., valued at Rs. 28,800. These alkaloids, which are equal in purity to any manufactured in Europe, furnish the entire requirements of the Government Medical Stores in India. Out of the surplus, small quantities are sold to Civil Surgeons for use in district dispensaries, and licensed chemists and druggists, but the bulk of it is shipped to London for auction, the exports averaging 20 lbs. of morphine hydrochloride, and 5 lbs. of codeine monthly.

Medical opium in cake and powder is prepared from specially selected opium of the finest quality, and is supplied to the

Government Medical Store dépôts chiefly. About 1,000 lbs. of each kind is prepared annually.

Apart from the operations mentioned above, the Factory affords employment to a large numbers of persons in Ghazipur and elsewhere, for the manufacture of supplementary requirements. The gunny coverings, to the number of about 20,000, are obtained from the Alipore Jail. The Patna Saw Mills having been closed, the chests are obtained from contractors, and among local purchases, may be mentioned between 3 to 6 lakhs of earthen cups supplied by the potters, at the rate of 250 to the rupee, and from 10 to 12,000 small bamboo mats, which are used to separate the two layers in the chest and cost Rs. 3-8-0 per hundred.

The hands employed in the Factory vary according to the season, ordinarily ranging from 500 to 2,000, though in the busy season, from April to June, the average rises to about 3,500.

Page 68.—RAILWAYS.

Six Lines from bottom *before* "for a term" *insert* "first", *after* "Rs. 8,000," *substitute* "and subsequently for a further period of 10 years, at Rs. 4,000."

Page 78.—CENSUS 1911.

On page 77, for "Census of 1901" *read* "In the census of 1901 on the contrary it was found that," etc., and *omit* last sentence of section.

Add.—"The last census, that of 1911, shows another heavy decline to 839,725. All the four tahsils show a decrease, which is due, partly to emigration but mainly to the heavy death-rate. In the decade there were no less than 70,692 deaths from plague, and in 5 years out of the ten, the death-rate exceeded the birth-rate.

The number of inland emigrants registered during the last ten years is 6,365, and that of Colonial emigrants 3,238.

Page 81.—SEX.

Suggestion.—Leave the article as it is and add a foot-note against hold * in line 10 of page 81.

Page 81.—TOWNS AND VILLAGES.

The census figures of 1911 show that, out of a total of 2,549 inhabited villages and towns, 2,092 contained less than 500 persons

* "In 1911 the males exceeded the females by 675, but the statistics are so abnormal owing to plague, that it is unfair to set these figures against Mr. Nevill's theories."

apiece, 306 between 500 and 1,000, 121 between 1,000 and 2,000, 25 between 2,000, and 5,000, 4 between 5,000 and 10,000, while only two exceeded that figure.

The urban population comprises the inhabitants of Ghazipur city, and of the Act XX towns of Muhammadabad, Zamania, Bahadurganj, and Saidpur, 37,771 persons in all, or 4·5 per cent. of the district total.

Page 82.—RELIGION.

Substitute.—"Of the whole population as enumerated at the last census (1911) 762,435 were Hindus, 155 Aryas, 1 Jain, 5 Sikhs, and 76,561 Muhammadans, and 568 Christians.

Hindus therefore constitute 90·70 per cent. of the total, and Musalmans 9·11 per cent. This is the smallest proportion of Musalmans on record, and is partly accounted for by their greater susceptibility to plague, partly perhaps by the fact that, the Ghazipur Musalmans are mainly in poor circumstances. It has never been the experience of this district that Musalmans increase more rapidly than Hindus."

Page 83.—CHRISTIANITY.

The Christian community numbers 568 in all, mostly in Ghazipur where there are a number of European and Eurasian residents. There is a large Anglican church at Ghazipur, built by Government in 1837 for the use of the troops, at a cost of Rs. 25,400. It has a tower 85 feet in height, and the structure is remarkable in being as broad as it is long. There is no chaplain, and the station is visited twice a month by a clergyman from Benares.

The native Christians are for the most part Lutherans, and owe their conversion to the German Lutheran Mission, founded in 1855 by the Revd. W. Ziemann, and conducted since his death by the Revd. H. Lorbeer. The mission buildings included two dwelling houses for the staff, a church built in 1862 at a cost of Rs. 9,000, an orphanage and an Anglo-Vernacular school made over to the mission by Mr. Tucker when Commissioner of Benares, and three schools for girls. The work of conversion has not been rapid, as the total number of Christians has only increased by 70 since 1881. The converts are mainly Koeris, as a number of this caste are attracted by the Opium Factory. It is not surprising, under the circumstances, that other missions have refused to recognize that the

Lutherans have the monopoly claimed by them for the district, and the London Mission has attacked the Saidpur tahsil from the west, and an American Mission is working in Muhammadabad from the east. Neither of these have fixed head quarters in the district as yet.

OTHER RELIGIONS.

It is only recently that any movement has been noticed among the depressed castes to raise themselves. Besides the work of the Christian missions, proselytism is practised by the Arya Samaj and the Anjuman Islamia. During the last ten years the numbers of the Arya have been doubled, and Musalmans have advanced in opposition to them. On the whole, however the district is markedly orthodox.

There are no domiciled Sikhs but in the 1901 census many persons were incorrectly entered as such, and there is but one Jain. The Jewish community has diminished to 10, but they still have a separate and well-cared for cemetery.

Page 94.—LITERATURE.

Delete from "An Urdu" (line 10 "affairs" (line 14) and *substitute*.

"Pande Ram Saran Lal of Mianpura prints monthly under the control of the District Board, a 'Ghazipur Gazette,' which contains, besides local news, articles on subjects of general interest such as agriculture, sanitation, education, etc."

ADMINISTRATION AND REVENUE.

Page 121—DISTRICT STAFF.

Line 5.—

Substitute.—"In addition to four tahsildars and a Bench of seven Honorary Magistrates for the Municipality of Ghazipur, there are two special and two Honorary Magistrates, one with 1st class powers at Nonahra in the Muhammadabad tahsil, another with 2nd class powers in Ghazipur city, and two with 3rd class powers, one at Pahitia in Ghazipur tahsil and the other at Saidpur. The latter does not now exercise his powers. Criminal . . . as in text . . . Muhammadabad".

Line 12.—

Substitute after Muhammadabad.—"There is also a Bench of four Honorary Munsifs sitting at Ghazipur. The jurisdiction . . . as in text—Khanpur" (then *add*) "The Honorary Munsifs have the same local jurisdiction as the stipendiary Munsif at Ghazipur. The Bench is empowered to try suits up to the value of Rs. 200."

This should come on page 121 after the "District staff."

Page 121—COURT OF WARDS.

A list showing the estates brought under the management of the Court of Wards or released from its management during the last 11 years is appended.

Page 133—REVISION OF 1878-85.

Insert at end of existing section. "A further revision of records of rights in two talukas was undertaken in 1912 and 1913".

*Page 136—POLICE CIRCLES.**Line 13.—*

Substitute. "In 1907 there was a fresh re-distribution. The police circle of Karandah was abolished, and absorbed in Nandganj, while 12 villages were transferred from the latter to other circles, and one from Saidpur to Sadat. This leaves 14 stations" . . . as in text.

Page 137—CRIME.

Last sentence, 6 lines from end, from "Under the description being the Chain Chamars, who are being declared a criminal tribe, and certain sections of the Bhars who, . . . etc. of Ghazipur."

Page 139—FERMENTED LIQUOR.

For para headed "Fermented liquor," substitute "Tari obtained from the abundant toddy palms is very popular among the lower classes. Since 1911 the shop to shop system has been in force, and there are 138 shops. The receipts are now treble what they were in 1890-91".

Page 140—HEMP DRUGS.

Line 3.—For "The right of vend etc." substitute "Since April 1st, 1913, the right of vend has been leased to two contractors, who have two tahsils each."

Line 10.—From "and for the last 10 years," etc., substitute "For the ten years ending 1906-1907, the figures of 1877-78 were doubled, and the receipts for 1912-13 reach the record figure of Rs. 54,070. This result has been achieved mainly by higher taxation, though the consumption also has increased. Statistics of the amount sold are not available for the earlier years, but from 1892-93 to 1901-02 the average was 36.2 maunds of ganja, 14.9 of charas, and 107.3 of bhang, and for the succeeding 10 years to 1911-12, it was 33.5 maunds of ganja, 14.5 of charas, and 39.5 of bhang. Latterly ganja has become more popular, and charas and bhang less so. There are 81 retail shops" . . . to end.

Page 141—OPIUM

Delete sentence "official vend . . . number."

Line 14.—For "and for the last ten years, etc." substitute "and after a remarkable rise in the three years, 1908-9 to 1910-11, the consumption has settled down to about 15 maunds. The figures for 1909-10 can only be explained by sales in illicit quantities to other districts, the consumption being over 71 maunds.

The sales were after this restricted, and official vend by treasurers re-introduced. It is probable that the restricted sales fairly represent the requirements of the district, but the contractor gets a far higher price than that prescribed for the treasurers."

Page 142—INCOME TAX.

Delete from "From these (11) lines from bottom Rs. 25,214," and *insert*, "From these it will be seen that, since the exemption of incomes under Rs. 1,000, the tax has remained fairly steady, but the trade of Ghazipur has suffered from the advent of the railway, and is now of little importance."

Page 147.—EDUCATION.

From line 7.—"The last few years have been a period of unprecedented activity in educational matters. The special grants made by the Government have enabled the District Board to open a number of new primary schools (District Board and Aided), and improve the general efficiency of the existing schools. A list of all the schools in the district in 1913 is appended. In addition to the two High Schools, with 459 scholars on their rolls, the Arya Samaj has started an Anglo-Vernacular Middle school, which had 35 scholars on the 31st March 1913.

There are seven District Board Vernacular middle schools located at Ghazipur, Muhammadabad, Bahadurganj, Zamania, Nauli, Kamalpur, and Saidpur, with a total of 818 pupils. There are three aided middle schools, one at head quarters, one at Piari, and one at Reotipur. The latter was started by the local zamindars in 1911, and obtained a District Board grant in 1913.

The District Board primary schools are 98 in number, 44 being of the upper primary type. The total number of scholars is 8,851. There are also girls' schools at Birpur and Kamalpur, with 76 scholars, and six municipal schools of which two are for girls, with an attendance of 500, in addition to five aided schools with 314 pupils. The other aided schools include 86 for boys and 16 for girls, with 3,679 and 473 pupils respectively. The girls' model school at Ghazipur which is maintained out of provincial funds, had, in 1913, 55 scholars, and the *patwari* school 83. There were two training classes at Ghazipur and Saidpur in 1908, and two more have since been sanctioned for Zamania and Muhammadabad, of which the latter was opened in July 1913.

The Arya Samaj and Islamia Orphanages maintain classes for elementary education at Ghazipur, and the former has opened a night school for sons of artisans and labourers. The number

on the roll is 40. It is a free institution, and the teachers are unpaid.

The total number of schools, including 50 unaided schools with 855 pupils, is 281, with an attendance of 16,395, of whom 672 are girls. The unaided institutions are of slight importance.

Numerous new schools have been built in the last few years, and the Victoria High School, Ghazipur, has been partially rebuilt, and a new chemical laboratory and boarding house added. The Kshatriya zamindars have also built a boarding house in Ghazipur for members of their community."

Page 148.—DISPENSARIES.

Line 6.—From the end, *substitute* "During the five years ending 1912, the average daily attendance at the five public dispensaries has been as follows:—

1908.	1909.	1910.	1911.	1912.
429·61	483·45	395·78	367·21	356·63

After "Company" *add*:—"While the Opium Factory maintains a small dispensary for its staff and labourers."

TRAVELLING DISPENSARIES.

New para. after dispensaries. "Since July 1911 travelling dispensaries have been working in this district. At first there were four and now there are three. They met with immediate success, attracting over 58,000 patients the first year."

Page 149.—NAZUL.

Lines 1-11.—*Substitute*:—"The chief nazul property comprises the old Ghazipur cantonment, which became in turn a stud and a tobacco farm. Until 1912 part only was leased to Messrs. Fox and Aitchison, while the municipality managed the intra-municipal portion. In 1912 the Board of Revenue took over this area, and leased the whole of the Stud Farm and Stud Lands to Messrs. Fox and Aitchison, at an annual rent of Rs. 21,082, of which Rs. 7,600 per annum is paid to the municipality as compensation."

The municipality also receives " . . .) as in text.

FURTHER CORRECTIONS.

Pages 99 and 100.—Article on *Qazis of Yusufpur* the following corrections.

Line 4 for "Shiraz" *read*, "Arabia (Medina.)"

Line 6 (from bottom). For "Nazim-ul-Haq." read Najim-ul-Haq.

After Sikandarpur, for the following sentence substitute. 1793—1826
 "He had two sons, Najm-ul-Haq who became Qazi and whose son Alim-ul-haq is still living, and Azim-ul-haq who is a retired Deputy Collector, owning a small area of land in the district, and is now Qazi."

Page 111 — ARTICLE BANIA LANDHOLDERS.

Line 9.—Spell diwan with capital D and after factory, insert,

"A post, which remained hereditary in the family from 1793: 1826, when it was abolished."

Line 20.—For Jadunath Son read Jadunath Das.

Page 195.—To article Ghauspur add :—

There is a fourfaced image set up in a temple, locally known as Narsingh, which may be a representation of Brahma of the four faces. In a tank submerged in the rains is another image known as Chakwa Mandhata; there are also a third Narsingh, a curious stone tiger, and apparently a Buddha outside a temple of Mahadeo.

Possibly Ghauspur is a corruption of Ghamsanapatipur mentioned on page 93 of Carlyle's report.

Page 222 add—To ARTICLE MAHAICH.

"The pargana takes its name from a now uninhabited dih half way between Dhanapur and Hingotar, close to Nekkampur village. It was restored by Pirbal Sah Gaharwar, but again fell into ruins."

Page 235 add—To ARTICLE NONAHRA.

"West of the village is an old mosque, built by Mir Saidu, one of the Saiyids. It is in a sad state of disrepair and is not used for worship. It bears an inscription with the chronogram :—

خرد گشت بامن کیت العتق

In front is a dilapidated tomb of Mir Ishtiyag, a descendant of Saidu, who died in Jahangir's reign, 1626. The chronogram runs :—

منصب قرب حق رد کردید

At the back of the tomb is a black inscribed stone, fragmentary. It is in fine Kufi character and looks to be of the time of Balban. In the mosque, let into the central mihrab is a very old

carved and inscribed stone. The kalima is in characters which might go back to the days of Altamash. Probably this too belonged to a much earlier building. Nonahra was once a much larger place, and extended for a considerable distance."

Page 197—9 LINES FROM THE BOTTOM substitute :—

"The old cemetery on the north of the Benares road has been closed since the early thirties. It is unfortunate that sufficient funds are not supplied to prevent the tombs from falling into ruins. Many are however in good repair still, and among the most interesting are those of Captain R. H. Buchanan, 24th N. I., erected by his brother officers in 1816, and Lieutenant-Colonel I. P. Pigott, 6th Native Cavalry, erected in 1810 by his friend, Thomas Alcock. Other tombs are those of Mrs. Ann Murray and Chevalier de L'Etang, Knight of St. Louis, and Lt. G. de L'Etang of the European regiment.

In the new cemetery are the tombs of the Hon'ble E. Hastings, who died in Eyre's advance to the relief of Arrah in 1857, the Venerable Archdeacon Pratt of Calcutta, who died in 1871, Col. Frith, C. B., Mr. La Touche, C. S., and several other military and civil officers. A visit to these cemeteries gives some idea of the appalling mortality of the early half of the nineteenth century, presumably from cholera or other epidemic diseases,

To the south of etc. as in text."

BALLIA.

Supplementary notes and statistics to

VOLUME XXX

OF THE

**District Gazetteers of the United Provinces
of Agra and Oudh.**

ALLAHABAD :

Printed by W. C. Abel, Offg. Supdt., Government Press, United Provinces

1914.

Notes for the B volume of the Gazetteer of the Ballia District, 1901—1911.

Page 1.—BOUNDARIES AND AREA—(1).

The area of the whole district was 793,623 acres or 1,240 square miles in 1906 and it rose to 796,278 acres or 1,244 square miles in 1912. The cause of this variation is due to alluvion and diluvion.

Page 11.—SURHA TAL—(3).

The total area of the Surha Tal covered by water at the last settlement was 2,774 acres. In 1912 30·73 acres more was cultivated. The area cultivated was settled with the zamindars of that place for five years at a jama of Rs. 130.

Page 28.—PLAGUE—(6).

During the period from 1907 up to date inoculation against plague has been more appreciated by the people.

Number inoculated was :—

In 1907	3,397
„ 1908	15,426
„ 1909	24,127
„ 1910	28,863
„ 1911	10,322
„ 1912	19,791

Page 47.—FAMINE OF 1908—(7).

Ballia approached nearer to famine than on any previous occasions of which we have records. The conditions were worse than in 1897, the accumulative effect of several bad rice crops followed by total loss of that crop and of various damages from floods to the kharif harvest of 1906 over a large area.

The situation was saved by the liberal distribution of takavi, by the sturdy energy of the cultivators and by the rainfall in January. No one of these causes can be eliminated. Without takavi there would have been less seed and limited means of paying labourers, without unflagging industry, irrigation would have been impossible, and without either the rains of January would have fallen uselessly on barren fields.

Page 51.—MANUFACTURES—(8a).

There is no Indigo Factory in this district. The one at Bilaria has since been stopped.

Page 52.—MANUFACTURES—(8b).

Besides the two flour mills there are two other steam oil mills.

Page 57.—FAIR—(9).

The whole receipts for the three years ending in 1911 amounted to Rs. 41,398, the average being Rs. 13,799, while the expenditure amounted to Rs. 18,093 for the same period, the average being Rs. 6,031. There is a little difference in the average income of the fair and it needs no comment. The average number of cattle for the past three years ending in 1911, which passed the barrier, was 52,605 while that of horses and ponies was 3,922 and average number of sales in each case was 29,183 and 2,281 respectively. In 1912, besides the usual bazars, an elephant bazar was also established one hundred and fifteen elephants were admitted. Out of which 24 were sold out in the fair.

Page 57.—EXHIBITION—(10).

(New paragraph).

A small exhibition and agricultural show was held for the first time in 1911. The exhibits consisted of country produce, prizes were given to cattle and horses and there were agricultural demonstrations. The agricultural demonstration was a great success. A very large number of improved seeds were exhibited and their value explained. Ploughs, pumps, corn crushers, winnowers, &c., were also shown and worked.

Page 58.—RAILWAYS—(11).

Ghagra was at first crossed near Chand Diaraghat by a steam ferry leading to Manghi Ghat. A bridge has now been constructed there and was opened in January 1912.

Between Ballia and Phephna a flag station was made at Sagarpali in 1909, at the request of the leading members of that village.

Page 59.—ROADS—(12).

The metalling of Ballia Sikandarpur Road from Hanuman-ganj to Sukhpura has also been taken in hand by the District Board. It is now metalled 9 miles (to Sukhpura).

Page 60.—BUNGALOWS—(13).

The inspection house at Ballia has since been turned into Deputy Collector's quarters and a new dāk bungalow has been built which is under district board control.

Page 60.—FERRIES—(14).

In 1911-12 the Ganges ferries yielded Rs. 17,550, Ghagra, Rs. 4,200 and the Pipra ferry Rs. 100. The average total income for the five preceding years being Rs. 20,050.

Page 61.—WATER WAYS—(15).

The traffic posts at Nauranga and Naukagaon have since been abolished and other posts at Sisotar, Sikandarpur, Barsari, Deorar, Maniar, Bahadura and Rajpur in the Bansdih tahsil have been established.

Page 68.—RELIGIONS—(16).

The Methodist Episcopal Church of America began work in Rasra in February 1906, under the supervision of Revd. J. Ilahi Bakhsh and Mrs. Bakhsh, M.D. The work has been confined to one caste, the chainars, and has spread with great rapidity. Since September 1908, the Revd. H. J. Schutz has been the missionary in charge of the district. Up to 13th January 1913 the mission had a christian community of over 1,900, there are small churches at Ballia and Rasra. Excepting seven village schools scattered in the different christian villages, no schools have been established.

Page 83.—LANGUAGE AND LITERATURE—(17).

At present there are two printing presses at Rasra and one at Ballia.

Page 90.—DUMRAON ESTATE—(18).

The estate is now owned by Babu Kesho Prasad Singh, one of the members of the family of late Maharaja Sri Radha Prasad Singh, Bahadur, K.C.I.E. The late Maharaja, prior to his death, executed a deed poll, dated the 17th March 1889, by which he authorized his lady Maharani Beni Prasad Kunari to adopt a son out of the members of his *Gotia* for the time being living at Dumraon. By virtue of power given her by the said deed poll she adopted one Jang Bahadur Singh, a minor son of B. Gaya Prasad Singh, of Jagdishpore, on the 15th December 1907, and died the same day. The estate then came under the management

of the court of wards. The adoption was set aside by the civil court after a lot of litigation. Babu Kesho Prasad Singh obtained possession in October 1911. He is somewhat indebted at present.

Page 96.—PANDES OF BAIRIA—(19).

Since taken under the court of wards although arrangements are not yet complete.

Babu Padmadeo Narain Pande died in 1912. His property is now owned by his son Pramod Narain Pande. His estate is very much indebted and he is trying to have his estates being taken under the management of the court of wards.

Page 109.—DISTRICT STAFF—(20).

Of the five Honorary Magistrates Babu Padmadeo Narain Pande died in 1912 and Babu Ram Prakash Singh ceased to be so since 1911, of the remaining three Babu Sarjoo Prasad Singh, of Jirgarsand, exercises third class Magisterial powers in the police stations of Garwar and Bansdih. A bench of Magistrates was established in 1910, comprising Babu Jamuna Prasad of Hanumanganj, Shaikh Muhammad Munir of Kazipur and Shaikh Abdul Hamid of Ballia town as members. They exercise 2nd class Magisterial powers within the limits of the Ballia municipality and also try cases relating to Ballia police station beyond the municipal limits.

In connection with the civil jurisdiction a bench Munsifi was established in 1912, at district head quarters, having for its members Babu Jamuna Prasad, Shaikh Muhammad Munir and Babu Harbaran Singh of Takarsand.

Page 124.—POLICE STATIONS—(21).

The outpost at Tola Shiwan Rai is under orders of abolition. New police stations at Sahatwar and Narhi are under construction for the Reoti and Korantadih stations respectively.

Page 127.—JAILS—(22).

Moonj ban and a lac pounding factory have since been started.

Page 131.—POST OFFICES—(23).

The number of Post Offices has since been raised to 37 and Karan though reckoned in the Ghazipur district is situated in this district.

Page 133.—DISTRICT BOARD—(24).

Now a paid Secretary has been entertained since 16th April 1908.

Page 133.—EDUCATION—(25a).

In 1910 it was made a Provincial High School and there are over 300 pupils on the roll. The old school buildings have been washed away by the Ganges and excellent buildings for the school as well as for the hostel have been constructed in the new town of Ballia.

Page 134.—EDUCATION—(25b).

In 1911-12, there were eight Middle and 108 Primary Schools under the District Board in addition to 46 District Board aided schools and five Municipal Board aided schools. Besides there were 96 private schools teaching Sanskrit, Arabic, Hindi and Urdu to 2,335 boys, the total number of Vernacular scholars in Vernacular Schools being 12,192.

Page 134.—EDUCATION (25c).

On 31st March 1912 there were eight aided girl's schools with 151 scholars and a Model Girls' School was started at Ballia by the Government.

These schools are doing well. Besides these there were 34 girls reading in boys' schools.

Page 135.—DISPENSARIES—(26a).

Since 1906, a Contagious Ward, an Isolation Ward and a female ward attached to the District Hospital and a contagious ward attached to the Police Hospital have newly been erected.

Page 136.—DISPENSARIES—(26b).

Total number of patients treated in the dispensary during 1912 was 50,728 against 44,010 of 1905, the average daily attendance being 324.92. Besides these dispensaries, there were four travelling dispensaries in the district during 1912.

Page 136.—CATTLE-POUNDS—(27).

The total income from pounds in 1911-12 was Rs. 4,093. This excludes the sum realized from the pounds at Ballia and Rasra, the income of which is credited to Municipal Fund and Notified Area Account. The pound at Ratsand was abolished and new pounds were opened at Baklaha in 1910-11, Misrauli and Bharsanta in 1911-12.

Page 169.—BALLIA—(28).

A canopy over the well situated in the middle of the chauk was built by Babu Sarju Prasad Singh of Jigirsand in memorial of his

deceased father at a cost of about Rs. 7,000. All the roads of the new town have now been metalled, and the sites have been leased for building purposes. The houses have been built with great rapidity and the town is becoming well populated.

Page 170.—BALLIA—(29).

The old school buildings have been washed away by the river and excellent buildings for the school and hostel have been constructed in the new town.

Page 165.—BAIRIA.

Note:—
New paragraph to be inserted on page 165 at the end of the history of "Bairia."

In 1911-12 there were 1,500 houses of which 515 houses have been assessed. The total population in 1901 was 8,635. The total receipts was Rs. 2,054-15-0 and expenditure was Rs. 1,332-3-3. The census return of 1911 shows that there were 6,169 inhabitants in the town including 713 Muhammadans.

Page 180.—BANSDIH, 1911-12.

Of 2,355 houses only 462 houses were assessed. The total receipts amounted to Rs. 2,372-7-3 while the expenditure amounted to Rs. 1,410. There were 7,764 inhabitants including 599 Muhammadans in the census of 1911.

Page 184.—BARAGAON.

In 1911-12, out of the total number of houses, 1,780, assessment was made on 505 houses. The total receipts were Rs. 2,100-15-0. There were 4,204 inhabitants including 374 Muhammadans in the last census.

Page 234.—MANIAR—1911-12.

The total number of houses was 1,985, out of which 825 houses were assessed. The total receipts were Rs. 2,694-10-0. There were 7,475 inhabitants including 559 Muhammadans in the census of 1911.

Page 248.—REOTI, 1911-12.

The total number of houses amounted to 2,073 of which 572 were assessed. The total receipts were Rs. 1,886-7-0. There were 6,137 inhabitants including 615 Muhammadans in the census of 1911.

Page 250.—SAHATWAR, 1911-12.

Total number of houses 2,217 and out of this 475 houses were assessed. Total receipts Rs. 2,799-2-0. There were 5,148 inhabitants including 353 Muhammadans in the census of 1911.

Page 253.—SIKANDARPUR, 1911-12.

Out of the houses 1,777, only 613 houses were assessed. Total receipts were Rs. 2,264-3-0. There were 5,514 inhabitants including 2,001 Muhammadans in the census of 1911.

Page 34.—CULTIVATION.

There is no change in the method of cultivation, but it may be mentioned that Meston's ploughs, chain pumps and new seeds of several kinds have been purchased in consequence of the exhibition.

Page 65.—CENSUS, 1911.—(NEW PARAGRAPH).

The census of 1911 took place in the month of March 1911. The total population of this district was ascertained to be 845,418 against 987,768 of the preceding census. There was a decrease of 142,350 inhabitants which is chiefly due to an abnormal death rate on account of plague and fever in certain years. The total number of deaths from plague for the five years ending in 1911 amounted to 75,718 while that on account of fever was 87,767.

Page 66.—TOWNS AND VILLAGES.

In 1911, Ballia contained 1,953 inhabited towns and villages. Of these these 1,732 towns and villages contained a population of less than 1,000, and 163 less than 2,000 and of the remaining 51 had a population between two and five thousand and five over 5,000.

The largest place is Ballia, containing 16,684 inhabitants. It is followed by Rasra having a population of 9,300; then come Bansdih, Maniar, Bairia and Reoti, all of which have over 6,000 souls. Besides these the other towns and a village namely Sikanderpore, Sahatwar, Baragaon and Haldi have over 4,000 inhabitants each.

Page 82.—OCCUPATION.

According to the census of 1911 the agricultural population including dependants amounted to 71·44 per cent. of the whole population. Of the remainder 13·35 were included in the industrial classes, 2·58 per cent. being engaged in food industry, 2·22 in the textile manufacture and ·77 in the metal work while others represented occupation including work in leather and hides, wood and other jungle products, of the remainder 1·74 represented domestic

service, '69 per cent. transport, '41 per cent. Government or municipal service ; among the rest '73 per cent. represented those without any regular employment. This includes chiefly beggars and vagrants.
